ALBUMS

This is it. This is your first official family heirloom. This is what you'll place on your coffee table. This is what you'll show your kids. Cake? Eaten. Flowers? Wilted. Your album will showcase your special day forever.

After using several companies and exploring hundreds of books at wedding expos I'm proud to say I now exclusively use KISS Wedding Albums. They're elegant, modern, simple, and well, sexy. These are not your parents albums with photos glued in and large margins. KISS albums feature 100% natural leather with thick flush-mount printed pages. Inner creases are nonexistent and every page lays flat for gorgeous full page spreads.

All design is done by myself personally with input and modifications by you. Each album receives the utmost love and attention.

ALBUM PRICING

Albums start at 15 spreads (30 pages). Albums feature approx. 3 images per side, so a 15 spread album will feature about 45 images. Leather albums feature hard pages with luster paper; linen feature soft pages with luster paper.
